Nora Ladue

Janet Lee-Sheriff

Susan Magun

Golden Predator Mining Corp.

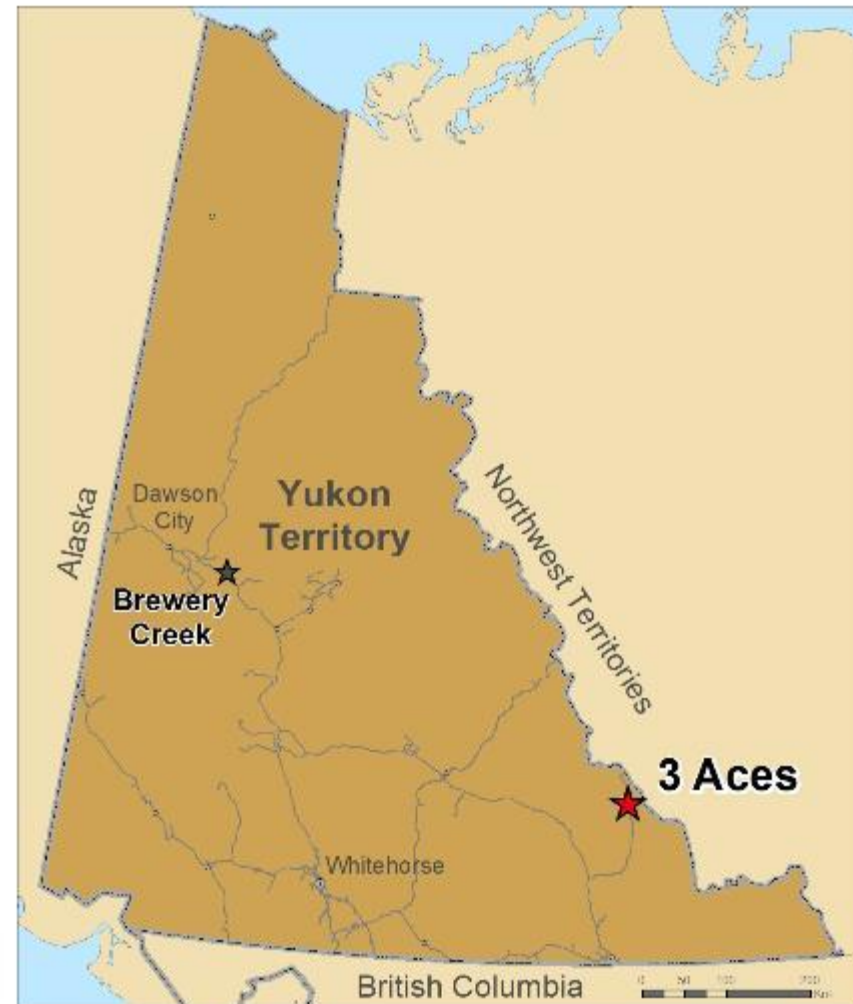

Operating in the Yukon since 2009

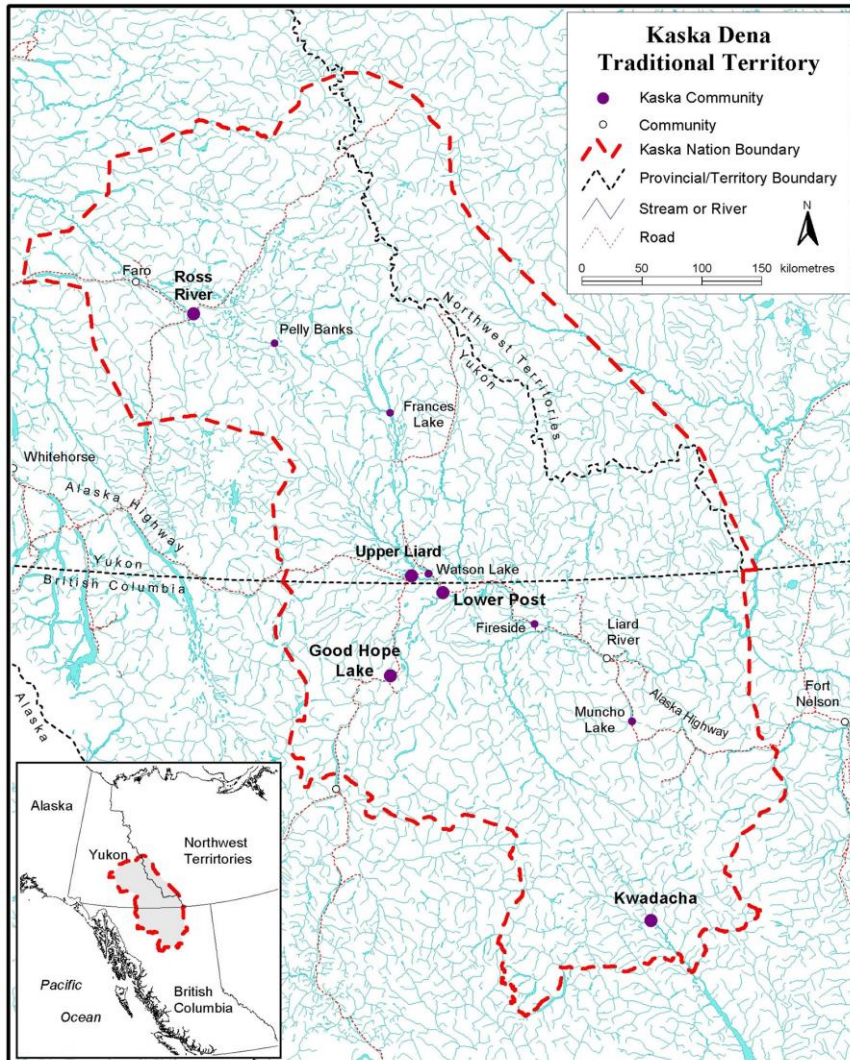

Yukon Experience – since 1988

Company Community Goals

- Be an industry leader with strong community relationships
- Mutually beneficial exploration and socio economic agreements
- Acting beyond negotiated agreements

Kaska Nation

- 5 Nations with 24 million hectares of land including:
 - 25% of the land base of the Yukon
 - 10% of British Columbia
 - Overlap into the Northwest Territories
- Unsurrendered Aboriginal Rights

- To build a relationship based on trust and respect
- Manage expectations of investors and the community as an exploration project without a revenue stream
- Move forward together towards building a potential mine

Environmental Baseline Work

Elders-in-Residence Program

March 2018

Mary Caesar suggested program

May 2018

Program Announced

June 2018

Planning Sessions -Watson Lake/Ross River

Program start up

Elders-in-Residence Program

- Support learning and understanding, promote cultural awareness and share wisdom and teachings
- Elders live and work at site for the operating season as a valuable part of the exploration process

Elders-in-Residence Program

3 Aces Project Camp on the Nahanni Range Road

- Cabins designated as permanent Elders Cabin with wheelchair access
- 4 Elders (2 from Ross River Dena Council and 2 from Liard First Nation) living and working at the 3 Aces camp each week
- Each Elder offers different skills and contributions

Elders-in-Residence Program

3 Aces Project Camp

- Approx. 55 Elders to site in 2018 plus 80 Elders and Youth at Year End Retreat
- Site tours by truck and helicopter; visits to surrounding areas and activity
- Review of core and geological information; meetings with staff
- Kaska language component
- Season ended with Elders/Youth Retreat
- All supported by businesses with FN partnerships or full ownership

Elders-in-Residence Program

LESSONS LEARNED

1. A non-political way to engage community and understand world views and experience
2. Concerns and interests exist in exploration and mining activity – all can be managed with respect and approach
3. Education is a two way street
4. Good start to ***meaningful engagement*** and has opened the door to meaningful sharing
5. KEY - Involvement and advancement of youth is a critical
6. Exchange of information and appreciation for concerns on culture, wildlife, environment, revenue sharing and mine development

Elders-in-Residence Program

OUTCOMES

- Improved Staff Retention
- Enhanced Human Resources & Camp Health
- Sense of Purpose - United
- Traditional Knowledge Appreciation
- Cultural Awareness and Understanding for Non-Kaska citizens/Mining and Exploration Industry
- Knowledge Shared
- Language Incorporated to the Programs
- Video Projects
- Business Potential - Together
- **Need for Greater Information sharing – direct to the First Nation government and community**
- **Relationship Change – shared future**

Elders-in-Residence Program

NEXT STEPS

- Elders Advisory Committee
- Land Guardianship position
- Traditional Knowledge Work
- Shared Business Opportunities
- Youth Mentorship and Involvement
- Language Development
- Information Sharing - New Approach
- Permitting and assessment – New Approach
