

TABLE OF CONTENTS

1.0	General Safety Principles	1
1.1	Health and Safety Programs	2
1.2	Due Diligence with Respect to Safety	3
1.2.1	Employees' Rights with Respect to Due Diligence	5
1.2.1.1	Right to Know	5
1.2.1.2	Right to Refuse Unsafe Work	5
1.2.1.3	Right to Participate	5
1.2.1.4	Right to a Violence-Free Workplace	6
1.2.2	Responsibilities with Respect to Due Diligence	6
1.2.2.1	Board of Directors	7
1.2.2.2	Managers	7
1.2.2.3	Supervisors	8
1.2.2.4	Individual Employees and Workers	9
1.2.2.5	Health and Safety Committee Members or Safety Representatives	9
1.2.3	Training	9
1.2.4	Inspections and Audits	10
1.2.5	Documentation	12
1.3	Internal Responsibility System	12
1.4	Resources	13
2.0	General Safety	15
2.1	Preparations to Reduce Risks	16
2.1.1	Working Alone Versus the "Buddy System"	18
2.1.1.1	Risks and Hazards	18
2.1.1.2	Jurisdictional Requirements	18
2.1.2	Safety Meetings	20
2.1.2.1	Pre-Program Induction Safety Meetings	21
2.1.2.2	Routine Scheduled Safety Meetings	24
2.1.2.3	Daily or Shift Work Safety Meetings	24
2.1.2.4	Drill Site Safety Meetings	25
2.1.3	Alcohol and Drug Policies	27
2.1.4	Job Safety Analyses	28
2.1.5	Risk Assessments	30
2.1.5.1	The Risk Assessment Process	30
2.2	Accident and Incident Investigation and Reporting	40
2.2.1	Securing the Site	41
2.2.2	Observations	42
2.2.3	Documentation	42
2.2.4	Interviews	42
2.2.5	Analysis	43
2.2.6	Recommendations	43
2.3	Resources	43
3.0	Emergency Response	46
3.1	Risks and Hazards	46
3.2	Emergency Management Versus Crisis Management	47
3.3	Guidelines for Developing Emergency Response Plans	48

3.4 Components of Emergency Response Plans	49
3.4.1 Site Operation Information	49
3.4.2 Risk Assessment of Site Operations	50
3.4.3 Emergency Equipment	50
3.4.4 Trained Personnel	51
3.4.5 Implementation of Emergency Response Plans	51
3.4.6 Directions to the Site	52
3.4.7 Communications and Contact Lists.....	52
3.4.8 Training and Testing Emergency Response Plans	54
3.4.9 Documentation	54
3.4.10 Recovery	55
3.5 Guidelines for Developing Emergency Response Procedures	55
3.5.1 Medical Emergency	55
3.5.2 Vehicle Accident or Incident	56
3.5.3 Missing Persons	57
3.5.4 Survival – Stranded Crew.....	57
3.5.5 Aircraft Accident	58
3.5.6 Boat Accident	59
3.5.7 Fires.....	60
3.5.8 Whiteouts and Extreme Cold	61
3.5.9 Wild Animals.....	61
3.5.10 Spills	62
3.5.11 Bomb Threat and Security	63
3.5.12 Example of a News Release	63
3.6 Resources	64
4.0 Personal Safety	66
4.1 Risks and Hazards	67
4.2 Hazard Control and Personal Protective Equipment (PPE)	67
4.2.1 Physical Conditioning	68
4.2.2 Head Protection.....	70
4.2.3 Eye Protection	71
4.2.4 Hearing Protection.....	73
4.2.5 Hand Protection.....	75
4.2.6 Foot Protection	78
4.2.7 Lung Protection	79
4.2.8 Protection from Ionizing Radiation	81
4.3 Lifting and Back Protection	82
4.4 Skin Protection	84
4.5 Resources	86
5.0 Field Equipment Safety	89
5.1 General Guidelines for the Safe Use of Tools	89
5.2 Rock Hammers and Chisels	92
5.3 Axes, Swedish Brush Hooks, Knives and Machetes (Pangas)	92
5.4 Augers	94
5.5 Power Tools	96
5.6 Chainsaws	98

5.6.1 Risks and Hazards	98
5.6.2 Preventions and Preparations	98
5.6.3 Chainsaw Kickback	100
5.6.4 Safety Considerations When Felling Trees	101
5.7 Brush Cutters	103
5.8 Water Pumps	104
5.9 Small Generators.....	105
5.10 Rock and Core Handling and Cutting Equipment	106
5.10.1 Risks and Hazards	107
5.10.2 General Rock and Core Handling Guidelines	107
5.10.3 General Safety Regarding Rock Cutting Saws	109
5.10.4 Core Cutting Saws	110
5.10.5 Core Splitters.....	111
5.10.6 Portable Rock Saws	112
5.10.7 Stationary Slab Saws	113
5.11 Portable Handheld XRF Analyzers	113
5.12 Resources.....	113
6.0 Safe Traversing Practices	116
6.1 Risks and Hazards	116
6.2 Responsibilities (Due Diligence) and Traversing.....	117
6.3 General Traversing Guidelines.....	118
6.3.1 Development of Safe Operating Procedures	119
6.3.2 Emergency Response Plans	120
6.3.3 Training for Safe Traversing.....	120
6.3.4 Day Pack Equipment.....	121
6.3.5 Clothing	123
6.3.6 Traversing Alone Versus the “Buddy System”	127
6.3.7 Traverse Planning Tips	128
6.3.8 Tips for Knowing Your Location	129
6.3.9 Communication and Signaling Tips.....	130
6.3.10 Emergency and Survival Tips	131
6.4 Traversing in Specific Terrain	131
6.4.1 Mountainous Terrain	132
6.4.2 Snowfields and Glacier Terrain	134
6.4.3 High Arctic Latitudes	136
6.4.4 Cliffs and Steep Terrain.....	138
6.4.5 Traversing Safety and Streams, Rivers and Lakes.....	139
6.4.6 Wet Terrain.....	142
6.4.7 Deserts	142
6.4.8 Heavy Vegetation or Jungle	144
6.4.9 Tropics.....	145
6.4.10 Working Along Roads, Highways and Railway Cuts.....	146
6.5 Resources.....	148
7.0 Knowing Your Location.....	150
7.1 Risks and Hazards	151
7.2 Topographic Maps and Map Grids	151

7.3 Air Photographs and Satellite Images	154
7.4 Compasses	154
7.5 Global Positioning Systems (GPS)	156
7.6 Emergency Locator Devices (ELTs, PLBs).....	158
7.7 Batteries.....	160
7.8 Resources.....	161
8.0 Survival.....	163
8.1 Risks and Hazards	163
8.2 Responsibilities (Due Diligence) and Survival	164
8.3 Prevention and Preparation for Survival Situations	166
8.3.1 Attitude	166
8.3.2 Knowledge.....	167
8.3.3 Equipment	170
8.3.4 Confronting a Survival Situation.....	171
8.4 Survival Equipment Lists.....	172
8.5 General Advice for Survival Situations.....	175
8.5.1 Survival Advice for Cold Climate Conditions.....	176
8.5.2 Survival Advice for Desert Conditions.....	177
8.5.3 Survival Advice for Forested Areas.....	178
8.6 Priorities for Survival Situations	179
8.6.1 First Aid	179
8.6.2 Location.....	180
8.6.3 Shelter	180
8.6.4 Fire	185
8.6.5 Water and Food.....	187
8.6.6 Signalling.....	191
8.7 Search and Rescue (SAR)	196
8.7.1 Guidelines for the Lost or Injured Person.....	197
8.7.2 Guidelines for the Project or Camp Manager.....	198
8.8 Resources.....	199
9.0 Weather and Environmental Risks	201
9.1 Weather Hazards	201
9.1.1 General Preparations	201
9.2 Lightning.....	202
9.2.1 Risks and Hazards	202
9.2.2 Prevention and Preparation	203
9.3 Whiteouts.....	206
9.3.1 Risks and Hazards	206
9.3.2 Prevention and Preparation	206
9.4 Avalanches	208
9.4.1 Risks and Hazards	208
9.4.2 Prevention and Preparation	209
9.5 Floods	212

9.5.1 Risks and Hazards	212
9.5.2 Prevention and Preparation	213
9.6 Mudflows and Landslides	215
9.6.1 Risks and Hazards	215
9.6.2 Prevention and Preparation	216
9.7 High Winds	217
9.7.1 Tornadoes	219
9.7.2 Hurricanes, Cyclones and Typhoons	223
9.8 Environmental Risks	224
9.9 Cold Injuries	224
9.9.1 Risks and Hazards	225
9.9.2 Project Planning to Prevent Cold Injuries.....	225
9.9.3 Hypothermia	226
9.9.3.1 Prevention and Preparation	226
9.9.3.2 Symptoms and Recognition.....	227
9.9.3.3 Treatment for Mild Hypothermia	228
9.9.4 Cold Water Immersion Hypothermia	229
9.9.5 Frostbite	230
9.9.6 Immersion Foot	232
9.10 Heat Illnesses and Solar Injuries.....	234
9.10.1 Risks and Hazards	234
9.10.2 Project Planning to Prevent Heat Illnesses	234
9.10.3 Hyperthermia.....	235
9.10.3.1 Prevention and Preparation.....	235
9.10.3.2 Less Serious Forms of Hyperthermia	236
9.10.3.3 Heat Exhaustion and Heat Stroke	237
9.10.3.4 Interim Treatment – Prior to Evacuation to a Medical Centre	238
9.10.4 Sunburn.....	239
9.10.5 Snow Blindness.....	241
9.11 Altitude Illness.....	242
9.11.1 Risks and Hazards	243
9.11.2 Acute Mountain Sickness (AMS).....	243
9.11.2.1 Symptoms of AMS	244
9.11.2.2 Recognition and Classification of Acute Mountain Sickness (AMS)	245
9.11.2.3 Treatment for AMS	246
9.11.3 Severe AMS – High Altitude Cerebral Edema (HACE).....	246
9.11.4 Severe AMS – High Altitude Pulmonary Edema (HAPE).....	246
9.11.5 Other Altitude-Related Illnesses.....	247
9.11.6 Planning for High Altitude Projects.....	248
9.12 Resources.....	250
10.0 Wildlife	255
10.1 Risks and Hazards	255
10.2 Responsibilities (Due Diligence) Regarding Wildlife	256
10.3 Bears	257
10.3.1 Precautions and Preventions	257
10.3.2 Types of Bears	259
10.3.3 Bear Habitats and Signs.....	260
10.3.4 Tips for Project or Camp Site Locations.....	261
10.3.5 Food Handling and Waste Management.....	263

10.3.5.1 Guidelines for Food Handling and Storage	263
10.3.5.2 Guidelines for Waste Management	264
10.3.6 Bear Warning Systems for Camps.....	265
10.3.7 Bear Response Plans.....	266
10.3.8 Bear Behaviour.....	267
10.3.8.1 Bear Behaviour – Recognizing Signs of Stress.....	268
10.3.8.2 Defensive and Non-Defensive Bear Behaviour.....	268
10.3.9 Bear Deterrents	269
10.3.9.1 Noise Makers.....	269
10.3.9.2 Bear Pepper Spray	271
10.3.9.3 Firearms.....	273
10.3.9.4 When it is Necessary to Shoot a Bear	274
10.3.9.5 Deterrents Use – Effective Range	274
10.3.10 Guidelines for Bear Encounters	276
10.3.10.1 Tips for Avoiding Bear Encounters on Traverses.....	276
10.3.10.2 Bear Encounters – How You Should React	277
10.3.10.3 Encounters – When Bears React Defensively	277
10.3.10.4 Encounters – When Bears React Non-Defensively.....	278
10.4. Other Large Mammals	279
10.4.1 North and South America	279
10.4.2 Africa and Asia	282
10.5 Dogs, Cats and Monkeys	282
10.6 Reptiles	283
10.6.1 Snakes	283
10.6.1.1 Prevention and Preparation to Avoid Snakebite.....	284
10.6.1.2 Treatment of Snakebite	286
10.6.1.3 Australian Pressure-Immobilization Technique for Snakebite.....	289
10.6.2 Crocodiles and Alligators.....	290
10.7 Insects, Arthropods and Leeches	291
10.7.1 Mosquitoes and Flies	292
10.7.2 Bees, Wasps and Ants	293
10.7.2.1 Allergic Reactions and Anaphylactic Shock	294
10.7.3 Ticks	295
10.7.4 Fleas.....	296
10.7.5 Bed Bugs.....	297
10.7.6 Triatoma Bugs	298
10.7.7 Scorpions	298
10.7.8 Spiders	299
10.7.9 Leeches.....	301
10.8 Resources.....	301
11.0 Surveying: Geophysical, Geochemical and Line Cutting.....	305
12.0 Travel, Safety and Security	306
13.0 Vehicles	307
13.1 Risks and Hazards	307
13.2 Responsibilities (Due Diligence) Regarding Vehicles	308
13.3 Safe Driving Guidelines for All Vehicles.....	309
13.4 Equipment Lists for Vehicles	310

13.5 Vehicle Maintenance and Inspections	312
13.5.1 Vehicle Maintenance	312
13.5.2 Regular Vehicle Inspections.....	312
13.5.3 Contractor’s Vehicles	314
13.5.4 Rental or Leased Vehicles	314
13.6 Training.....	315
13.6.1 Loading Guidelines.....	315
13.6.2 Vehicle Controls and Equipment.....	315
13.6.3 How to Change a Tire	316
13.6.4 How to Use a Hi-Lift Jack (Jack-All, Kangaroo Jack).....	317
13.6.5 Starting a Vehicle with Booster Cables (Jump Start)	319
13.6.6 Winches.....	319
13.6.7 Fuelling Procedures	321
13.7 Handling and Driving Skills	321
13.7.1 Braking	321
13.7.2 Parking	322
13.7.3 Reversing	323
13.7.4 Crossing Streams.....	323
13.7.5 Towing.....	324
13.8 Defensive Driving Skills and Attitudes	327
13.8.1 General Defensive Driving Techniques.....	328
13.8.2 Techniques for Unpaved Roads.....	329
13.8.3 Weather-Related Safe Driving Techniques.....	330
13.9 Four-Wheel Drive Vehicle Operation Guidelines.....	333
13.9.1 General Driving Techniques.....	333
13.9.2 Off-Road Driving Guidelines	334
13.10 Resources.....	336
14.0 All-Terrain Vehicles (ATVs and Quads)	338
14.1 Risks and Hazards	338
14.2 Responsibilities (Due Diligence) Regarding ATVs.....	339
14.3 Safe Operating Guidelines for ATVs	340
14.4 Equipment Lists for ATVs.....	342
14.5 Inspection, Maintenance and Fuelling Guidelines	343
14.6 Training for ATV Operators	346
14.7 Safety Precautions	347
14.8 Basic Safe Riding Skills.....	349
14.8.1 Correct Riding Posture	349
14.8.2 ATV Controls	349
14.8.3 Loads.....	350
14.8.4 Towing Trailers.....	351
14.8.5 Transporting ATVs	351
14.9 Safe Riding Strategies	353
14.9.1 General Strategies	353
14.9.2 Tips for Crossing Obstacles	354
14.9.3 Tips for Turning	355
14.9.4 Tips for Climbing Hills.....	355

14.9.7 ATV Retrieval Tips	358
14.9.8 Riding in Various Terrains	358
14.9.9 Riding in Water	359
14.9.10 Riding in Sand (Deserts or Beaches)	360
14.10 Utility Vehicles	361
14.11 Resources	362
15.0 Snowmobiles	364
16.0 Aircraft	365
17.0 Boats, Canoes and Inflatables	366
17.1 Risks and Hazards	367
17.2 Responsibilities (Due Diligence) Regarding Boats, Canoes and Inflatables	367
17.3 Safe Operating Guidelines for Boats, Canoes and Inflatables	368
17.4 Safe Loading Guidelines	370
17.5 Equipment – Required and Recommended	371
17.5.1 Required Equipment	371
17.5.2 Recommended Equipment	373
17.5.3 Information about Specific Equipment	375
17.6 Communications Guidelines for Boats, Canoes and Inflatables	378
17.7 Guidelines for Motors and Fuel Handling	380
17.7.1 Motors	380
17.7.2 Fuelling Procedures	381
17.8 Maintenance and Inspection Guidelines	382
17.9 Training	383
17.10 Safe Boat Handling Guidelines and Techniques	384
17.11 Recognition of Boating Risks and Hazards	385
17.12 Water Survival	390
17.12.1 Risks and Hazards	390
17.12.2 Prevention and Preparation	390
17.12.3 Cold Water Immersion Hypothermia	391
17.13 Resources	394
18.0 Camp Set-Up and Management	397
19.0 Communications	398
19.1 Risks and Hazards	399
19.2 Responsibilities (Due Diligence) Regarding Communications	400
19.3 Equipment Selection	401
19.3.1 Equipment Considerations	401
19.3.2 Satellite Telephones	402
19.3.3 Two-Way Radios	404
19.3.4 Mobile or Cellular Telephones	405
19.3.5 Emergency Locator Devices (ELTs, PLBs, EPIRBs)	406

19.4 Training	408
19.5 Communications Routines, Schedules and Protocols	409
19.5.1 Routines and Schedules	409
19.5.2 Radio Use Protocols.....	411
19.6 Emergency Communications	412
19.6.1 Project Emergency Call List	412
19.6.2 Company Hotlines	413
19.7 Communications Tips Regarding Transportation	414
19.8 Resources	415
20.0 Drilling Sites	417
20.1 Risks, Hazards and Common Injuries Related to Drilling	417
20.2 Responsibilities (Due Diligence) Regarding Drilling Sites	420
20.3 Drill Site Location, Planning and Preparation	423
20.3.1 General Preparations	423
20.3.2 Drilling Near Power Lines.....	425
20.3.3 Drilling on Ice.....	426
20.4 General Safety Guidelines for Drill Sites	434
20.4.1 Emergency Response Plans (ERPs)	434
20.4.2 Communications.....	435
20.4.3 Pre-Program Safety Meetings	435
20.4.4 Inspections	436
20.4.5 Reporting	436
20.4.6 Employee Conduct.....	437
20.4.7 Site Visitors	437
20.5 Guidelines for Safe Work Practices	437
20.5.1 Personal Protective Equipment (PPE)	438
20.5.2 Working at Height – Fall Protection.....	439
20.5.3 Housekeeping	440
20.5.4 Manual Handling	441
20.6 General Hazards Associated with Drills and Specific Equipment	442
20.6.1 General Safety around Drill Sites	442
20.6.2 General Safety Tips Regarding Drilling Methods.....	443
20.6.3 Specific Hazards Regarding Drilling Methods.....	445
20.6.3.1 Specific Drilling Methods	445
20.6.3.2 Exposed Machine Parts.....	446
20.6.3.3 Mechanical Failures.....	447
20.6.3.4 Hydraulic Systems	447
20.6.3.5 Compressed Air Systems	448
20.6.3.6 High Pressure Hoses.....	448
20.6.3.7 High Pressure Pumping Systems.....	450
20.6.3.8 Fire.....	450
20.6.3.9 Waterline Heaters.....	451
20.7 Health Hazards	452
20.7.1 Noise	452
20.7.2 Respiratory Hazards.....	452
20.7.3 Radioactive Mineral Sampling and Storage	452
20.7.4 Hazardous Materials	452
20.7.4.1 Silica Dust.....	453

20.7.4.2 Asbestos and Amphiboles	454
20.7.4.3 Drilling Additives and Fluids	454
20.7.4.4 Other Hazardous Materials.....	455
20.8 Guidelines for Safe Drill Moves	456
20.9 Core Facilities and Sample Preparation	458
20.9.1 Risks and Hazards	458
20.9.2 General Safety Practices.....	459
20.9.3 Core Facilities.....	459
20.9.4 Sample Preparation.....	460
20.9.5 Core Logging.....	461
20.9.6 Toxic Substances used for Mineral Identification.....	462
20.10 Selecting a Drill Contractor – Evaluation Criteria	465
20.10.1 Suggested Drilling Contract Requirements	465
20.11 Resources.....	467
21.0 Advanced Exploration Sites, Trenches and Access Routes.....	470
21.1 General Risks and Hazards	470
21.2 Responsibilities (Due Diligence) and Advanced Exploration Sites	471
21.3 Heavy Equipment	473
21.3.1 Specific Risks and Hazards	474
21.3.2 Training	474
21.3.3 Prevention and Preparation	475
21.3.4 Working Near Power Lines	480
21.4 Access Routes to Advanced Sites	484
21.4.1 Specific Risks and Hazards	484
21.4.2 Safety Tips for Access Routes	485
21.4.3 Winter Access Routes	486
21.4.3.1 Specific Risks and Hazards.....	487
21.4.3.2 Planning and Preparation for Winter Access Routes	488
21.4.3.3 Construction of Winter Access Routes	491
21.5 Trenches and Pits	496
21.5.1 Specific Risks and Hazards	496
21.5.2 Jurisdictional Regulations.....	497
21.5.3 Prevention and Preparation	498
21.6 Explosives	501
21.6.1 Specific Risks and Hazards	501
21.6.2 Jurisdictional Regulations.....	502
21.6.3 Prevention and Preparation	502
21.7 Resources.....	503
22.0 Abandoned Surface and Old Underground Workings.....	506
22.1 Risks and Hazards	507
22.2 Responsibilities (Due Diligence) with Regard to Old or Abandoned Sites....	508
22.3 Guidelines and Preparations for Exploring Old or Abandoned Sites	509
22.4 Surface Hazards at Old Workings	511
22.4.1 Abandoned Surface, Pit or Strip Mines	511
22.4.2 Surface Structures and Machinery	512

22.4.3 Tailings and Water-Filled Areas	513
22.4.4 Surface Subsidence.....	513
22.4.5 Explosives and Chemical Hazards.....	514
22.5 Preparation Requirements to Enter Old Workings.....	516
22.5.1 Exploration Team Requirements.....	516
22.5.2 Equipment	517
22.5.3 Tests and Procedures Prior to Entry	518
22.5.4 Underground Lighting.....	519
22.6 Ventilation.....	519
22.7 Gases	519
22.7.1 Oxygen O ₂	520
22.7.2 Carbon Dioxide CO ₂	521
22.7.3 Carbon Monoxide CO.....	522
22.7.4 Hydrogen Sulphide H ₂ S	522
22.7.5 Methane CH ₄	523
22.7.6 Nitrogen Oxides NO and NO ₂	523
22.7.7 Sulphur Dioxide SO ₂	524
22.7.8 Radon Rn	524
22.8 Shafts, Adits, Tunnels and Declines	525
22.9 Common Hazards in Old Underground Workings.....	527
22.9.1 Timbers	527
22.9.2 Ladders	527
22.9.3 Water.....	528
22.9.4 Muck Piles and Mine Fill.....	528
22.10 Sampling on Abandoned Mine Sites – Surface and Underground	529
22.11 Confined Spaces	529
22.12 Resources.....	534
