

**Galore Creek Copper-Gold Project, British Columbia:  
The Tahltan, the Company and the Government**

**Brown, D.**, NovaGold Resources Inc.

NovaGold worked closely with the Tahltan Nation in Northwestern BC to advance the Galore Creek copper/gold project through exploration, feasibility and permitting between 2003 and early 2007. Highlights of this partnership included the creation of a Tahltan JV to conduct baseline environmental studies, several joint regulatory/Tahltan working groups and, ultimately, the signing of a comprehensive Participation Agreement to support mine development.
