Mining Company Disclosure Fundamentals

Learn key points for achieving quality technical disclosure for your mining company. If you are involved in preparing or approving technical disclosure material for an exploration company and feel you are not aware of all the basic requirements then this course is for you. This half-day workshop will cover the most common areas where mining venture issuers need practical guidance. Presented by TSX Venture Exchange professionals experienced in mining disclosure issues, you'll get valuable information that you can apply immediately.

Topics Include:

- Rules & Regulations
- News Releases – *Disclosing complex technical information correctly*
- Reserves & Resources – *How to report them and stay compliant*
- Economic Evaluations – *Disclosure from scoping studies to feasibility studies*
