For the first time in its 89-year history, our annual PDAC Convention—the world’s premier mineral exploration and mining event—will be entirely virtual.

As the COVID-19 pandemic continues to affect travel and major gatherings, we recognize that staying connected is more important than ever for members, exhibitors, sponsors, attendees and numerous partners. The decision to move forward with a virtual event offers a safe and innovative solution for the industry to access our outstanding programming, including on demand content available post-convention, investment and networking opportunities.

WELCOME MESSAGE FROM THE PRESIDENT

They say the only constant is change and I could not agree more. What started as a small gathering at the King Edward Hotel in Toronto back in 1932 grew and moved to the Royal York Hotel in 1944, before shifting to the Metro Toronto Convention Centre in 1997, where it became the PDAC Convention we know today.

Another constant in our 89-year history is progress. As the world’s premier mineral exploration and mining convention, we must continuously evolve to meet the needs and expectations of our industry.

Yet again, we face a challenge on a global scale, that has forced rapid change for businesses, governments and individuals alike. As the world overcomes this health pandemic, PDAC is embracing new ways to stay connected and move forward.

Group gatherings and international travel are not an option for now. That is why we are excited to invite you to our virtual PDAC 2021 Convention. For the very first time, we are coming directly to you, wherever you are in the world.

We know that our 25,000+ attendees take part in the annual PDAC Convention for a variety of reasons, including the networking opportunities. In 2021, you will connect and network in new and innovative ways as you engage with an outstanding lineup of speakers, programs, short courses, core displays and investment opportunities, along with learning about the latest trends and technologies that are shaping the industry.

Virtual or in-person, the PDAC Convention is where the world’s mineral industry meets. To stay informed of the latest news and information visit www.pdac.ca/convention.

I look forward to welcoming you to our 2021 convention!

We produce materials essential to a low-carbon future

- **76%** Of our electricity is from renewable sources
- **0** Net zero emissions target across our operations by 2050
- **30%** Carbon intensity reduction target before 2030
- **$1B** To be invested in climate-related projects
STUDENT & EARLY CAREER PROGRAM  All Access Pass required
Students will have a unique opportunity to network with industry professionals from around the world through events such as Flash Mentoring, Resume Review and the PDAC-SEG Student Minerals Colloquium.
For the first time we will host the Next Generation Explorers Award (NGEA™).
