WELCOME MESSAGE  
FROM THE PRESIDENT

After 92 years, PDAC's annual Convention in Toronto is still the event of choice for the world's mineral exploration industry's leaders, companies, executives, government representatives, students, scientists, and anyone else involved or interested in mineral exploration and development.

In 2023, this event (which earned the Tourism Industry Association of Canada's "Floor13 Business Event Award") hosted 23,819 attendees from 133 countries. They had come to browse the 1,116 exhibitors, to engage with the 717 presenters, and to enjoy networking opportunities, galas, events and more. Our own federal government used the Convention as a platform for important announcements of financing and policy decisions that affect mineral exploration and development. These special government announcements, and the presence of leading industry experts from across the globe, helped to make the 2023 Convention one of the biggest events in PDAC's history.

PDAC 2023 also saw the inaugural Dr. Donald M. Leishman Convention Experience, established with the generous support of the Leishman family, which provided an all-expenses-paid opportunity for students to attend the Convention. By enabling students and individuals at an early stage in their careers to participate in the Convention, the Leishman Experience helps to fulfill one of PDAC's goals, which is to develop an inclusive, skilled and diverse workforce.

For PDAC 2024, we are excited to bring to investors and other attendees even more expert programming, engaging presenters, and exhibitors. Along with the ever-popular annual Keynote Program, Indigenous Program, Sustainability Program and Corporate Presentation Forum for Investors (to name just a few), we are introducing several new features in 2024. For example, if you like networking then you'll love the all-new Coffee Connections and Happy Hours. And of course, no-one should miss the Awards Gala & Nite Cap, The Network, or the Pub Night Finale.

Covering over 600,000 square feet of event space across both the North and South Buildings of Toronto's Metro Toronto Convention Centre, PDAC 2024 will again be one of the largest showcases we have produced after almost a century of global success. Truly, the PDAC Convention is the World's Premier Mineral Exploration and Mining Convention.

Visit [www.pdac.ca/convention](http://www.pdac.ca/convention) for updates and more information about our March 2024 Convention. I look forward to seeing you there!

## CAPITAL MARKETS PROGRAM

**All Access Pass required**

Sponsored by

Access to capital is the lifeblood of the mineral exploration industry. The Capital Markets Program is intended to create a forum for dialogue on a range of topics related to the financing of mineral exploration:

- Decarbonization business cases for the mining sector
- Geopolitics, supply chains and the race for critical minerals
- Mine cost inflation amidst an energy transition gold rush
- Mineral financing and the banking ecosystem
- De-risking critical mineral supply chains in the face of changing geopolitical landscapes
- Where will the money come from?

## CORPORATE PRESENTATION FORUM FOR INVESTORS (CPFI)

**Open to all pass types**

The Corporate Presentation Forum for Investors (CPFI) is a popular series that features up-to-the-minute information on select exploration and development companies' current activities and investment potential. This series continues to be of strong interest to investors, highlighting the scope of commodities and stage of development represented at the convention.

New this year: Most CPFI sessions will take place in a theatre found on the Investors Exchange show floor.

[www.pdac.ca/convention/cpfi](http://www.pdac.ca/convention/cpfi)

## EXPLORATION INSIGHTS

**All Access Pass required**

Sponsored by

Exploration Insights showcases technical, policy and academic presentations that offer insight into current and relevant subjects.

At PDAC 2024, there will be two sessions of four presentations each. They will both showcase research related to the industry's artificial intelligence (AI) age. Session one will focus on new or refreshed exploration concepts and tools while session two will focus on case histories, tools and exploration strategies.

## INDIGENOUS PROGRAM

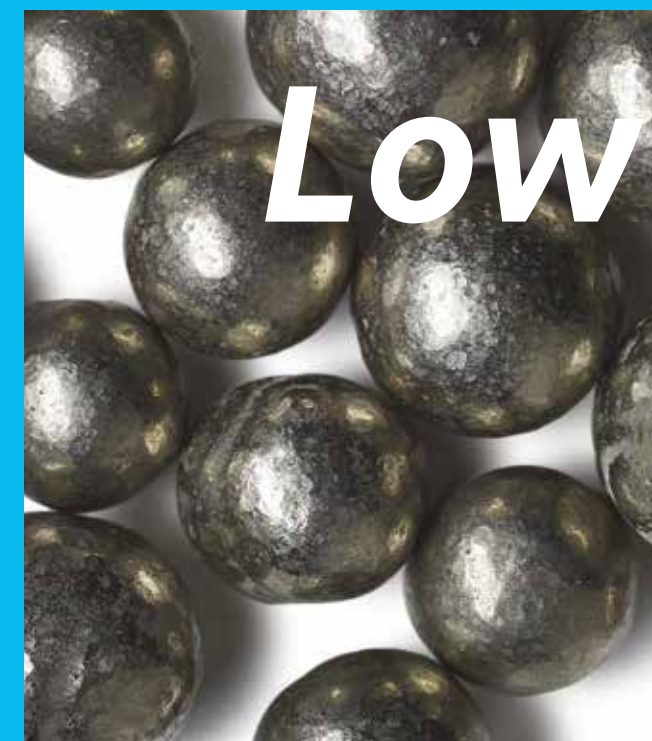

**All Access Pass required**

Uncover the fundamentals of building cooperative, respectful and mutually-beneficial partnerships between Indigenous communities and the minerals industry. Indigenous leaders, industry experts and legal professionals exchange their vision of prosperity and reconciliation with PDAC's global network. Topics will include:

- Benchmarking impact benefit agreements and ESG reporting
- Case studies for collaborative environmental initiatives applying traditional knowledge
- Creating a value proposition for Indigenous led mineral exploration

- Decarbonization and Indigenous participation
- Digging deeper on Indigenous workforce development and well-being
- Indigenous led impact assessments: Moving from consultation to collaboration
- Navigating to make big projects happen: Critical minerals in Canada

# Low Carbon

We are Vale Base Metals, producing low-carbon nickel, copper, and cobalt essential for the global energy transition.

How we produce these minerals matters. We are committed to achieve net-zero emissions by 2050.

To learn more about our efforts, visit booth #2305.

## INVESTMENT LEADERS FORUM (FORMERLY LETTER WRITER PRESENTATIONS FOR INVESTORS)

### Open to all pass types

Top newsletter writers and other professionals who inform investment decisions in the mining industry gather at this session to present their thoughts, charts, research reports and ideas on the criteria they use to select profitable investments in the resources sector.

New this year: Investment Leaders Forum will take place in a theatre found on the Investors Exchange show floor.

 [www.pdac.ca/convention/programming/investment-leaders-forum](http://www.pdac.ca/convention/programming/investment-leaders-forum)

## MASTER CLASS SERIES

### All Access Pass required

Learn from industry leaders as they share key insights and case studies throughout this new exclusive series of presentations.

Presentations by Anglo American, BHP, Mosaic, Rio Tinto, Teck, Vale, and Wood.

## The future of a better world is clear. It's happening now.

As more countries commit to net zero by 2050, demand for the resources essential to carbon reduction continues to grow.

Achieving net zero carbon emissions while delivering responsible economic development isn't easy, but it's resources like the copper and nickel produced by BHP that will help make both possible.

The future is clear. It's happening now.

## SUSTAINABILITY PROGRAM

All Access Pass required

Sponsored by

Understand how to navigate ESG when every project has different environmental, social and governance factors. Sessions look to achieve excellence in exploration by facilitating multi-stakeholder dialogue that examines the innovative ways in which the mineral industry effects improvement in their sustainability performance.

Join the peer-learning conversation on key issues related to responsible exploration and mining:

- Collaboration in the context of the Québec wildfires
- Diversify your workforce: Attract and retain women and Gen Z
- Social governance: Helping boards (and shareholders) to ask the right questions
- Junior ESG forum: Strategy to execution
- Understanding transparency requirements for juniors
- Where exploration meets operations and how to develop a sustainable value chain for critical minerals

## TECHNICAL PROGRAM\*

All Access Pass required

Learn next and best practices while industry experts share timely insights during these dynamic series of presentations.

Sunday Sessions  
Sponsored by

Critical minerals:  
Rare earth element carbonatites

Emerging Asia:  
The next frontier of exploration and corporate development opportunities

Future of commodities in volatile markets

Monday Sessions

Lithium: Global trends and new frontiers

Large gem diamonds and their influence on mine economics

Orogenic gold: Deep and epizonal systems

The risks and rewards of decarbonizing

Tuesday Sessions  
Sponsored by

Accelerating the transformation

Geophysics: Leading edge exploration case histories

Geopolitics and international perspectives in mining

Sediment-hosted copper deposits: A key component of the green energy transition?

Wednesday Sessions
