# HEALTH AND SAFETY

## EMERGENCIES

In the case of a fire alarm, the MTCC operates a two-phase alarm system:

### Stage 1: Slow beeping sound, alert signal

- Remain calm
- If the alarm is beeping slowly, this is a warning
- Do not evacuate the building at this stage
- Await instructions to be announced over the intercom (this will take approximately one minute) or speak to Security Staff

### Stage 2: Fast beeping sound, evacuate signal

- Only evacuate the building if instructed to do so over the intercom or by Security Staff
- Leave the building via the closest emergency stairwell
- Fire exits are highlighted in yellow on the floor plans that can be found on Pages 12-14
- Do not use elevators or escalators
- If you encounter smoke in the stairway, use an alternate exit
- Once outside, stay clear of the building to permit emergency access
- Do not attempt to remove vehicles from parking garages or loading docks
- Do not return until declared safe by the Fire Official

## Medical Emergency

In the event of a medical emergency:

- Dial 8160 on any MTCC house phone
- MTCC Security will respond and assess the situation
- If required, the MTCC Nurse will be called to the scene by MTCC Security
- If required, MTCC Security will call ambulance

## NURSE'S OFFICE

**The future is clear.  
It's happening now.  
In Canada and  
around the world.**

As countries take action to reduce emissions, demand is growing for Canada's commodities.

Nickel, copper and potash are vital to this transition and each play an essential role in decarbonisation.

Visit booth IE3034 to learn how we're growing our portfolio of future facing commodities.

## AMBASSADOR PROGRAM

Sponsored by

Look for Ambassadors dressed in gold T-shirts and caps. They will help get you where you need to go and answer your questions.

## CLEAN ENERGY INITIATIVE

Sponsored by

As part of an initiative to move towards a more sustainable convention, PDAC will use Bullfrog Power—a clean energy solution. Bullfrog Power provides the ability to offset all greenhouse gas emissions created by our convention by purchasing renewable energy. Bullfrog ensures that for every kWh of electricity used, a kWh of pollution-free, natural, renewable source is put back into the grid on our behalf. Bullfrog Power will inject renewable electricity onto the regional grid to match the amount our event uses.

TOGETHER  
**WE'RE  
MINING  
BETTER**

The business of mining is constantly changing and you're always on the lookout for new ways to mine better.

We continually look for ways to improve our offerings and provide better solutions for the mining industry — from quality machines and innovative technologies, to beyond-the-iron services and support solutions that leverage the broad expertise of our mining organization.

No matter the size, type or complexity of your operation, our goal is to help you optimize your equipment, people and overall operation. We appreciate the strong relationships we have with our customers and the industry as a whole. And we are grateful that you choose to partner with us in so many ways.

## 2023 MARY-CLAIRE WARD GEOSCIENCE AWARD WINNER

This year's recipient of the Mary-Claire Ward Geoscience Award is Darius Kamal, University of British Columbia.

For his PhD, Darius' research aims to establish how rock deformation during crustal shortening events impacts the distribution, preservation, and grade of sediment-hosted massive sulfide (SHMS) Zn-Pb deposits.

It is focused on the region of the Selwyn basin around and between the Howard's Pass and Macmillan Pass deposits in eastern Yukon and mapping will focus on 4D (temporal and spatial) geometric and kinematic analysis.

The award is administered by the Geological Association of Canada (GAC), the Prospectors & Developers Association of Canada (PDAC), the National Geological Surveys Committee, the Canadian Geological Foundation, and Watts, Griffis and McQuat Ltd.

 Application details will be posted at [www.pdac.ca](http://www.pdac.ca) and [www.gac.ca](http://www.gac.ca) on October 1, 2023.

# THANK YOU FOR YOUR SUPPORT!

Mining Matters greatly appreciates the contributions from the minerals and aggregates industries, individuals, foundations, corporations and governments. Your generosity supports all aspects of our program development and implementation.

Our mission is to educate young people to develop knowledge and awareness of Earth sciences, the minerals industry, and their roles in society. Since inception, Mining Matters has reached an estimated 800,000 teachers, students and members of the public across Canada with its hands-on resources and innovative teaching materials.
